

Wulftec SML150 Semi Automatic Pallet Wrapping Machine

The Wulftec SML150 semi-automatic stretch wrapping machine is a robust and powerful wrapping machine capable of withstanding the worst conditions.

The SML150 is designed to be used where both trolleys and forklifts dare, wrapping at speeds of up to 16RPM. Fast and efficient wrapping process, combined with Wulftec 200% powered pre-stretch film delivery system.

A great utility for the harshest conditions.

Backed up by FROMM Packaging Australia, rent or purchase options, the SML150 delivers for the Australian industry. All equipment is supported by our on-site mobile service team and spare parts are readily available.

Machine Stretch Film

FROMM premium films can reduce the cost to wrap a pallet whilst maintaining the all important containment forces needed to maintain the security of your goods whilst stored and transported. Ask your FROMM expert for their guidance.

- NO-THREAD® powered pre-stretch carriage
- Chain driven turntable

+ Benefits

- 200% powered pre-stretch film delivery system
- Capable of wrapping up to 160 pallets per day
- Pallet height detection sensor
- Soft start and stop for light loads
- Fully adjustable wrap programs
- Adjustable film tension
- FROMM 2 year warranty

★ Technical Specifications

Capacity:

Max. Pallets per Day: 160

Pallet Size:

Width (mm): 1050
 Length (mm): 1050
 Max. Height (mm): 2000
 Max. Weight (kg): 1800

Film Tension:

Max. Pre-stretch (%): 200

Turntable:

Speed (RPM): 16
 Diameter, octagon (mm): 1470
 Height (mm): 76

Film Specification:

Width (mm): 500

Power Supply:

240V, Single Phase, 50 Hz

Weight:

Total weight approx. (kg): 760

Operating Conditions:

Temperature range (°C): 0 - +40

Machine Options:

Extended mast up to 32mm
 Extended base
 Wash down motors for wet or corrosive environment
 Steel it Paint - rust protection coatings available
